FOR IMMEDIATE RELEASE

## Metegridy Confirms New CEO, Martin Fingerhut

**HOUSTON, Oct. 6, 2020** | On September 21, 2020, Metegridy Inc., confirmed Martin Fingerhut as their new Chief Executive Officer. Metegridy is the global leader for Quality and Asset Integrity Management software solutions for the asset intensive Oil & Gas, Chemical Production, Power Generation, LNG and Mining industries. Founder of Metegridy, Adrian Met and former Chief Executive Officer will continue as Chairman of the Board.

Martin Fingerhut brings a unique combination of leadership, talent and deep industry experience to Metegridy. He understands how to lead, build and mentor the entire organization to achieve success. He creates strategic partnerships and alliances that change the market landscape to benefit the customer. He is a revenue growth and profitability driver. Finally, Martin focuses the organization on serving the customers to provide extraordinary service.

Adrian Met has been quoted as saying, *“Martin’s senior executive experience and strong strategic thinking has done an outstanding job over the past year transforming Metegridy into a brand with growing global recognition and as a strong competitor in the Risk Based Inspection and Asset Integrity Management market spaces.”*

Prior to joining Metegridy, Martin was the CEO at Technical Toolboxes, the engineering performance solution standard for the Oil & Gas industry. Through his leadership he implemented new SOPs for the entire organization and created a synergistic partnership with customers and industry leaders. As President of Kiefner & Associates, a specialty pipeline reliability and compliance engineering firm, he tripled revenue growth and executed a successful M&A to achieve greater profitability and significant growth. Martin has a track record of performance improvement to unlock a company’s potential for the employees, customers and partners. He is a graduate of the University of Alberta and University of Calgary with degrees in Engineering and Business respectively.
